

About the Program

The Saskatoon Co-op offers a staff discount to all eligible employees. In order to be eligible, employees must have a Co-op membership number in their name. This membership can also be joint, but it must include the employee's name. Immediate family can also use this number to record their purchases. For the purposes of this program, immediate family is described as:

- Spouse
- Children
- Parents of a single employee

In order to be eligible for this staff discount, purchases must be made using this Co-op number.

This staff discount is 5% on all eligible purchases up to a maximum of \$12,000 in the previous fiscal year.

In the event of a layoff, the employee will be paid the discount for the entire duration of the layoff. This is only applicable if the employee has returned to work at the time the discount is paid out. If an employee retires, they are eligible for the discount for the full fiscal year of their retirement year.

If an employee leaves our place of employment (for any other reason than termination for just cause), they will also be eligible for the staff discount. In order to receive this, the former employee must apply for the rebate to their former department manager. The manager will then prepare a request for cheque on behalf of the employee. This application must be made before the end of the fiscal year.
